✓ Error Handling - Edge Cases › should handle malformed JSON response chromium	293ms
error-handling.spec.ts:860	
✓ Error Handling - Edge Cases › should handle empty response body chromium	294ms
error-handling.spec.ts:874	
✓ Error Handling - Edge Cases › should handle 404 for non-existent article chromium	307ms
error-handling.spec.ts:888	
✓ Error Handling - Edge Cases › should handle 404 for non-existent profile chromium	309ms
error-handling.spec.ts:899	
✓ Error Handling - 422 Validation Error › E2E-04: should render 422 validation errors on article creation chromium	447ms
error-handling.spec.ts:912	
▼ health.spec.ts	
✓ Health Checks › app should load successfully chromium	360ms
health.spec.ts:5	
✓ Health Checks › API should be accessible chromium	19ms
health.spec.ts:15	
✓ Health Checks › can navigate to login page chromium	283ms
health.spec.ts:21	
✓ Health Checks › can navigate to register page chromium	294ms
health.spec.ts:29	
▼ navigation.spec.ts	
✓ Navigation and Filtering › should navigate through main pages when logged out chromium	1.5s
navigation.spec.ts:21	
✓ Navigation and Filtering › should navigate through main pages when logged in chromium	1.6s
navigation.spec.ts:40	
✓ Navigation and Filtering › should filter articles by tag chromium	1.7s
navigation.spec.ts:63	
✓ Navigation and Filtering › should switch between Global Feed and Your Feed chromium	1.7s
navigation.spec.ts:109	
✓ Navigation and Filtering › should display popular tags chromium	1.6s
navigation.spec.ts:139	

✓ Navigation and Filtering › should paginate articles chromium	3.0s
navigation.spec.ts:160	
✓ Navigation and Filtering › should navigate to article from author name chromium	1.7s
navigation.spec.ts:183	
✓ Navigation and Filtering › should show article count on profile tabs chromium	1.9s
navigation.spec.ts:200	
✓ Navigation and Filtering › should handle empty states gracefully chromium	1.5s
navigation.spec.ts:227	
▼ null-fields.spec.ts	
✓ Null/Empty Image and Bio Handling › newly registered user should show default avatar on profile page chromium	577ms
null-fields.spec.ts:22	
✓ Null/Empty Image and Bio Handling › newly registered user should show default avatar in navbar chromium	566ms
null-fields.spec.ts:33	
✓ Null/Empty Image and Bio Handling › newly registered user should show default avatar on article meta chromium	642ms
null-fields.spec.ts:42	
✓ Null/Empty Image and Bio Handling › newly registered user should show default avatar in comment section chromium	735ms
null-fields.spec.ts:53	
✓ Null/Empty Image and Bio Handling › setting image should display custom avatar on profile page chromium	608ms
null-fields.spec.ts:71	
✓ Null/Empty Image and Bio Handling › clearing image to empty string should restore default avatar chromium	610ms
null-fields.spec.ts:88	
✓ Null/Empty Image and Bio Handling › null bio should not render as literal "null" on profile page chromium	624ms
null-fields.spec.ts:107	
✓ Null/Empty Image and Bio Handling › setting then clearing bio should not show stale data chromium	1.7s
null-fields.spec.ts:117	
✓ Null/Empty Image and Bio Handling › settings form should show empty string for null image chromium	567ms
null-fields.spec.ts:139	
✓ Null/Empty Image and Bio Handling › settings form should show empty string for null bio chromium	624ms
null-fields.spec.ts:146	
✓ Null/Empty Image and Bio Handling › author avatars should render on other user articles in feed chromium	1.6s
null-fields.spec.ts:153	
▼ settings.spec.ts	
✓ Settings - Profile Updates › should update bio only chromium	1.1s
settings.spec.ts:20	
✓ Settings - Profile Updates › should update image only chromium	1.0s
settings.spec.ts:68	
✓ Settings - Profile Updates › should update bio and image together chromium	1.0s
settings.spec.ts:107	
✓ Settings - Profile Updates › should display updated bio on profile page chromium	1.0s
settings.spec.ts:150	
✓ Settings - Profile Updates › should display updated image on profile page chromium	1.0s
settings.spec.ts:175	
✓ Settings - Profile Updates › should preserve username in navbar after update chromium	1.0s
settings.spec.ts:200	
✓ Settings - Profile Updates › should allow navigation to settings again after update chromium	1.1s
settings.spec.ts:225	
▼ social.spec.ts	
✓ Social Features › should follow and unfollow a user chromium	1.1s

social.spec.ts:22		
✓ Social Features › should view own profile	chromium	980ms
social.spec.ts:47		
✓ Social Features › should view other user profile	chromium	1.0s
social.spec.ts:64		
✓ Social Features › should display user articles on profile	chromium	1.2s
social.spec.ts:114		
✓ Social Features › should display favorited articles on profile	chromium	1.4s
social.spec.ts:132		
✓ Social Features › should display followed users articles in feed	chromium	1.1s
social.spec.ts:170		
▼ tl5-auth-risk.spec.ts		
✓ TL5 Auth Risk › E2E-02: unauthenticated user is redirected before creating article	chromium	290ms
tl5-auth-risk.spec.ts:4		
✓ TL5 Auth Risk › E2E-03: unauthenticated user is redirected before opening settings	chromium	294ms
tl5-auth-risk.spec.ts:14		
▼ tl5-critical-user-flow.spec.ts		
✓ TL5 Critical User Flow › E2E-01: user can register, create an article and view it in the application	chromium	962ms
tl5-critical-user-flow.spec.ts:6		
▼ url-navigation.spec.ts		
✓ URL-based Navigation (Realworld Issue #691) › / should show Global Feed for everyone	chromium	1.4s
url-navigation.spec.ts:13		
✓ URL-based Navigation (Realworld Issue #691) › /?feed=following should show Your Feed (authenticated)	chromium	1.5s
url-navigation.spec.ts:23		
✓ URL-based Navigation (Realworld Issue #691) › /?feed=following should redirect to /login when not authenticated	chromium	1.4s
url-navigation.spec.ts:33		
✓ URL-based Navigation (Realworld Issue #691) › /tag/:tag should filter by tag	chromium	1.5s
url-navigation.spec.ts:39		
✓ URL-based Navigation (Realworld Issue #691) › tabs should have correct href attributes	chromium	1.5s
url-navigation.spec.ts:52		
✓ URL-based Navigation (Realworld Issue #691) › clicking Your Feed should navigate to /?feed=following	chromium	1.5s
url-navigation.spec.ts:65		
✓ URL-based Navigation (Realworld Issue #691) › clicking Global Feed should navigate to /	chromium	1.5s
url-navigation.spec.ts:77		
✓ URL-based Navigation (Realworld Issue #691) › empty Your Feed shows helpful message with link to Global Feed	chromium	1.5s
url-navigation.spec.ts:90		
✓ Pagination › pagination should update URL with ?page=N	chromium	3.4s
url-navigation.spec.ts:111		
✓ Pagination › should load correct page when navigating directly to ?page=N	chromium	3.3s
url-navigation.spec.ts:137		
✓ Pagination › pagination URL preserves feed=following parameter	chromium	1.5s
url-navigation.spec.ts:160		
✓ Pagination › pagination should work with /tag/:tag	chromium	3.3s
url-navigation.spec.ts:182		
✓ Pagination › page should reset when switching feeds	chromium	3.4s
url-navigation.spec.ts:206		

✓	Pagination › tag pagination shows correct articles per page chromium	3.9s
	url-navigation.spec.ts:234	
▼	user-fetch-errors.spec.ts	
✓	User Fetch Errors on App Initialization - 4XX (should logout) › should handle 400 Bad Request on /api/user chromium	493ms
	user-fetch-errors.spec.ts:19
