▼ articles.spec.ts

✓ Articles › should create a new article	chromium	1.1s
articles.spec.ts:32		
✓ Articles › should edit an existing article	chromium	1.6s
articles.spec.ts:50		
✓ Articles › should delete an article	chromium	1.1s
articles.spec.ts:71		
✓ Articles › should delete an article when server returns 200 instead of 204	chromium	1.1s
articles.spec.ts:97		
✓ Articles › should favorite an article	chromium	1.2s
articles.spec.ts:123		
✓ Articles › should unfavorite an article	chromium	1.2s
articles.spec.ts:139		
✓ Articles › should view article from home feed	chromium	1.1s
articles.spec.ts:182		
✓ Articles › should display article preview correctly	chromium	1.3s
articles.spec.ts:207		
✓ Articles › should remove all tags when editing an article	chromium	1.6s
articles.spec.ts:229		
✓ Articles › should only allow author to edit/delete article	chromium	1.5s
articles.spec.ts:282		

▼ auth.spec.ts

✓ Authentication › should register a new user	chromium	479ms
auth.spec.ts:7		
✓ Authentication › should login with existing user	chromium	669ms
auth.spec.ts:19		
✓ Authentication › should show error for invalid login	chromium	368ms
auth.spec.ts:33		
✓ Authentication › should fail login with wrong password	chromium	624ms
auth.spec.ts:42		
✓ Authentication › should logout successfully	chromium	552ms
auth.spec.ts:59		

✓	Authentication › should prevent accessing editor when not logged in	chromium	286ms
	auth.spec.ts:72		
✓	Authentication › should maintain session after page reload	chromium	536ms
	auth.spec.ts:78		
✓	Authentication › should handle invalid token on page reload gracefully	chromium	405ms
	auth.spec.ts:87		
▼	comments.spec.ts		
✓	Comments › should add a comment to an article	chromium	1.1s
	comments.spec.ts:31		
✓	Comments › should delete own comment	chromium	1.2s
	comments.spec.ts:38		
✓	Comments › should delete comment when server returns 200 instead of 204	chromium	1.2s
	comments.spec.ts:60		
✓	Comments › should display multiple comments	chromium	1.3s
	comments.spec.ts:86		
✓	Comments › should require login to post comment	chromium	1.3s
	comments.spec.ts:102		
✓	Comments › should only allow comment author to delete	chromium	1.3s
	comments.spec.ts:116		
✓	Comments › should handle long comments	chromium	1.2s
	comments.spec.ts:141		
✓	Comments › should preserve comments after page reload	chromium	1.3s
	comments.spec.ts:148		
✓	Comments › should clear comment form after posting	chromium	1.2s
	comments.spec.ts:157		
▼	error-handling.spec.ts		
✓	Error Handling - 400 Bad Request › should handle 400 on login with validation errors		375ms
	chromium		
	error-handling.spec.ts:34		
✓	Error Handling - 400 Bad Request › should handle 400 on registration with validation errors	chromium	378ms
	error-handling.spec.ts:48		
✓	Error Handling - 400 Bad Request › should handle 400 on article creation	chromium	560ms
	error-handling.spec.ts:66		

✓ Error Handling - 401 Unauthorized › should handle 401 when submitting settings form 493ms chromium error-handling.spec.ts:102
✓ Error Handling - 401 Unauthorized › should handle 401 when posting a comment 509ms chromium error-handling.spec.ts:134
✓ Error Handling - 403 Forbidden › should handle 403 when updating article 608ms chromium error-handling.spec.ts:197
✓ Error Handling - 403 Forbidden › should handle 403 when deleting another users comment 609ms chromium error-handling.spec.ts:250
✓ Error Handling - 403 Forbidden › should handle 403 when following user you are blocked by 459ms chromium error-handling.spec.ts:322
✓ Error Handling - 500 Internal Server Error › should handle 500 on articles feed load 294ms chromium error-handling.spec.ts:377
✓ Error Handling - 500 Internal Server Error › should handle 500 on tags load 291ms chromium error-handling.spec.ts:388
✓ Error Handling - 500 Internal Server Error › should handle network error on tags load 276ms chromium error-handling.spec.ts:408
✓ Error Handling - 500 Internal Server Error › should handle 500 on user profile load 274ms chromium error-handling.spec.ts:427
✓ Error Handling - 500 Internal Server Error › should handle network error on user profile load 276ms chromium error-handling.spec.ts:438
✓ Error Handling - 500 Internal Server Error › should handle 500 on article detail load 277ms chromium error-handling.spec.ts:449
✓ Error Handling - 500 Internal Server Error › should handle network error on article detail load 277ms chromium error-handling.spec.ts:460

✓ Error Handling - 500 Internal Server Error › should handle 500 when submitting settings chromium error-handling.spec.ts:471	548ms
✓ Error Handling - 500 Internal Server Error › should handle intermittent 500 errors gracefully chromium error-handling.spec.ts:503	294ms
✓ Error Handling - Network Errors › should handle network timeout chromium error-handling.spec.ts:530	289ms
✓ Error Handling - Network Errors › should handle connection refused chromium error-handling.spec.ts:541	294ms
✓ Error Handling - Network Errors › should show error message on settings form when network fails chromium error-handling.spec.ts:551	592ms
✓ Error Handling - Network Errors › should show error message on login form when network fails chromium error-handling.spec.ts:591	375ms
✓ Error Handling - Network Errors › should show error message on register form when network fails chromium error-handling.spec.ts:605	378ms
✓ Error Handling - Network Errors › should show error message on create article form when network fails chromium error-handling.spec.ts:620	594ms
✓ Error Handling - Network Errors › should show error message on update article form when network fails chromium error-handling.spec.ts:648	543ms
✓ Error Handling - Network Errors › should show error message when adding comment fails due to network chromium error-handling.spec.ts:696	593ms
✓ Error Handling - Network Errors › should handle network error when favoriting article chromium error-handling.spec.ts:752	559ms
✓ Error Handling - Network Errors › should handle network error when following user chromium error-handling.spec.ts:810	478ms
✓ Error Handling - Edge Cases › should handle malformed JSON response chromium	294ms

error-handling.spec.ts:860		
✓	Error Handling - Edge Cases › should handle empty response body chromium	277ms
error-handling.spec.ts:874		
✓	Error Handling - Edge Cases › should handle 404 for non-existent article chromium	288ms
error-handling.spec.ts:888		
✓	Error Handling - Edge Cases › should handle 404 for non-existent profile chromium	278ms
error-handling.spec.ts:899		
▼ health.spec.ts		
✓	Health Checks › app should load successfully chromium	382ms
health.spec.ts:5		
✓	Health Checks › API should be accessible chromium	17ms
health.spec.ts:15		
✓	Health Checks › can navigate to login page chromium	297ms
health.spec.ts:21		
✓	Health Checks › can navigate to register page chromium	278ms
health.spec.ts:29		
▼ navigation.spec.ts		
✓	Navigation and Filtering › should navigate through main pages when logged out	1.6s
chromium		
navigation.spec.ts:21		
✓	Navigation and Filtering › should navigate through main pages when logged in chromium	1.6s
navigation.spec.ts:40		
✓	Navigation and Filtering › should filter articles by tag chromium	1.7s
navigation.spec.ts:63		
✓	Navigation and Filtering › should switch between Global Feed and Your Feed chromium	1.7s
navigation.spec.ts:109		
✓	Navigation and Filtering › should display popular tags chromium	1.6s
navigation.spec.ts:139		
✓	Navigation and Filtering › should paginate articles chromium	3.0s
navigation.spec.ts:160		
✓	Navigation and Filtering › should navigate to article from author name chromium	1.7s
navigation.spec.ts:183		
✓	Navigation and Filtering › should show article count on profile tabs chromium	1.8s
navigation.spec.ts:200		

✓	Navigation and Filtering › should handle empty states gracefully chromium	1.5s
navigation.spec.ts:227		
✓	null-fields.spec.ts	
✓	Null/Empty Image and Bio Handling › newly registered user should show default avatar on profile page chromium	590ms
null-fields.spec.ts:22		
✓	Null/Empty Image and Bio Handling › newly registered user should show default avatar in navbar chromium	596ms
null-fields.spec.ts:33		
✓	Null/Empty Image and Bio Handling › newly registered user should show default avatar on article meta chromium	673ms
null-fields.spec.ts:42		
✓	Null/Empty Image and Bio Handling › newly registered user should show default avatar in comment section chromium	746ms
null-fields.spec.ts:53		
✓	Null/Empty Image and Bio Handling › setting image should display custom avatar on profile page chromium	706ms
null-fields.spec.ts:71		
✓	Null/Empty Image and Bio Handling › clearing image to empty string should restore default avatar chromium	582ms
null-fields.spec.ts:88		
✓	Null/Empty Image and Bio Handling › null bio should not render as literal "null" on profile page chromium	577ms
null-fields.spec.ts:107		
✓	Null/Empty Image and Bio Handling › setting then clearing bio should not show stale data chromium	1.6s
null-fields.spec.ts:117		
✓	Null/Empty Image and Bio Handling › settings form should show empty string for null image chromium	591ms
null-fields.spec.ts:139		
✓	Null/Empty Image and Bio Handling › settings form should show empty string for null bio chromium	590ms
null-fields.spec.ts:146		

✓ Null/Empty Image and Bio Handling › author avatars should render on other user articles in feed chromium null-fields.spec.ts:153	1.6s
--	------

▼ settings.spec.ts

✓ Settings - Profile Updates › should update bio only chromium settings.spec.ts:20	1.0s
✓ Settings - Profile Updates › should update image only chromium settings.spec.ts:68	1.0s
✓ Settings - Profile Updates › should update bio and image together chromium settings.spec.ts:107	1.0s
✓ Settings - Profile Updates › should display updated bio on profile page chromium settings.spec.ts:150	1.0s
✓ Settings - Profile Updates › should display updated image on profile page chromium settings.spec.ts:175	1.0s
✓ Settings - Profile Updates › should preserve username in navbar after update chromium settings.spec.ts:200	1.0s
✓ Settings - Profile Updates › should allow navigation to settings again after update chromium settings.spec.ts:225	1.1s

▼ social.spec.ts

✓ Social Features › should follow and unfollow a user chromium social.spec.ts:22	1.1s
✓ Social Features › should view own profile chromium social.spec.ts:47	970ms
✓ Social Features › should view other user profile chromium social.spec.ts:64	986ms
✓ Social Features › should display user articles on profile chromium social.spec.ts:114	1.2s
✓ Social Features › should display favorited articles on profile chromium social.spec.ts:132	1.4s
✓ Social Features › should display followed users articles in feed chromium social.spec.ts:170	1.1s

▼ tl5-auth-risk.spec.ts

✓ TL5 Auth Risk › E2E-02: unauthenticated user is redirected before creating article	294ms
chromium tl5-auth-risk.spec.ts:4	
✓ tl5-critical-user-flow.spec.ts	
✓ TL5 Critical User Flow › E2E-01: user can register, create an article and view it in the application	1.0s
chromium tl5-critical-user-flow.spec.ts:6	
✓ url-navigation.spec.ts	
✓ URL-based Navigation (Realworld Issue #691) › / should show Global Feed for everyone	1.4s
chromium url-navigation.spec.ts:13	
✓ URL-based Navigation (Realworld Issue #691) › /?feed=following should show Your Feed (authenticated)	1.5s
chromium url-navigation.spec.ts:23	
✓ URL-based Navigation (Realworld Issue #691) › /?feed=following should redirect to /login when not authenticated	1.4s
chromium url-navigation.spec.ts:33	
✓ URL-based Navigation (Realworld Issue #691) › /tag/:tag should filter by tag	1.5s
chromium url-navigation.spec.ts:39	
✓ URL-based Navigation (Realworld Issue #691) › tabs should have correct href attributes	1.5s
chromium url-navigation.spec.ts:52	
✓ URL-based Navigation (Realworld Issue #691) › clicking Your Feed should navigate to /?feed=following	1.5s
chromium url-navigation.spec.ts:65	
✓ URL-based Navigation (Realworld Issue #691) › clicking Global Feed should navigate to /	1.5s
chromium url-navigation.spec.ts:77	
✓ URL-based Navigation (Realworld Issue #691) › empty Your Feed shows helpful message with link to Global Feed	1.5s
chromium url-navigation.spec.ts:90	
✓ Pagination › pagination should update URL with ?page=N	3.6s
chromium url-navigation.spec.ts:111	

✓ Pagination › should load correct page when navigating directly to ?page=N chromium	3.4s
url-navigation.spec.ts:137	
✓ Pagination › pagination URL preserves feed=following parameter chromium	1.5s
url-navigation.spec.ts:160	
✓ Pagination › pagination should work with /tag/:tag chromium	3.3s
url-navigation.spec.ts:182	
✓ Pagination › page should reset when switching feeds chromium	3.6s
url-navigation.spec.ts:206	
✓ Pagination › tag pagination shows correct articles per page chromium	3.9s
url-navigation.spec.ts:234	
▼ user-fetch-errors.spec.ts	
✓ User Fetch Errors on App Initialization - 4XX (should logout) › should handle 400 Bad Request on /api/user chromium	533ms
user-fetch-errors.spec.ts:19	
✓ User Fetch Errors on App Initialization - 4XX (should logout) › should handle 401 Unauthorized on /api/user chromium	529ms
user-fetch-errors.spec.ts:43	
✓ User Fetch Errors on App Initialization - 4XX (should logout) › should handle 403 Forbidden on /api/user chromium	524ms
user-fetch-errors.spec.ts:69	
✓ User Fetch Errors on App Initialization - 4XX (should logout) › should handle 404 Not Found on /api/user chromium	528ms
user-fetch-errors.spec.ts:91	
✓ User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should handle 500 Internal Server Error on /api/user chromium	558ms
user-fetch-errors.spec.ts:115	
✓ User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should allow browsing app in unavailable mode and persist token across reloads chromium	730ms
user-fetch-errors.spec.ts:136	
✓ User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should handle network timeout on /api/user chromium	525ms
user-fetch-errors.spec.ts:177	
✓ User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should handle network failure on /api/user chromium	544ms

user-fetch-errors.spec.ts:194		
✓	User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should handle empty response on /api/user chromium	506ms
user-fetch-errors.spec.ts:211		
✓	User Fetch Errors on App Initialization - 5XX (should enter unavailable mode) › should handle malformed JSON on /api/user chromium	476ms
user-fetch-errors.spec.ts:228		
✓	User Fetch Errors - Protected Routes › should redirect from /settings on 401 chromium	487ms
user-fetch-errors.spec.ts:258		
✓	User Fetch Errors - Protected Routes › should redirect from /editor on 401 chromium	477ms
user-fetch-errors.spec.ts:272		
✓	User Fetch Errors - Protected Routes › should handle 500 on loading /settings gracefully chromium	525ms
user-fetch-errors.spec.ts:286		
✓	User Fetch Errors - Protected Routes › should handle network error on /settings gracefully chromium	509ms
user-fetch-errors.spec.ts:299
